

PREMIUM FAST CASUAL · RAYFIELD, JOS

gemi

good food, no waiting.

A modern grab-and-go kitchen for burgers, shawarma and signature rice bowls — built on a crisp monochrome canvas, warmed with terracotta, walnut and living green. Editorial, photogenic, and made to scale.

05 · POSITIONING

Why this works in Rayfield.

Rayfield sits on a busy arterial road with a spending, image-conscious customer base and few premium quick-service options. Gemi avoids the tired fast-food clichés of loud reds and plastic seating. Instead it offers a clean, photogenic space people want to be seen in and post about — turning every customer into free marketing.

THE ONE THING TO REMEMBER

Strip everything back to black and white — then let bright Nigerian food be the only colour that shouts.

That single discipline is what makes the brand feel premium, scalable and unmistakably its own.
